Re: Safeco Electric

To whom it may concern:

I have worked with Safeco Electric on numerous projects in many different sectors over the past 12 years and have always found them to be excellent team players in the delivery of the electrical package on our projects. I have always found their management and staff to be diligent, thorough and professional.

I would have no hesitation in recommending Safeco Electric based on their performance on passed projects

Yours sincerely,

John P. Doyle MBS BSc
Contracts Director
