### **Re: Safeco Electric**

To Whom It May Concern,

I wish to confirm that Safeco Electric has successfully completed some electrical projects for us under our direct design and supervision.

Peter and his team at Safeco Electric have worked for us on a wide range of building projects and it is reassuring to be able to rely on them to ensure that all our electrical needs are met. They respond quickly and are flexible partners to work with, and have always provided us with prompt and consistent work."

We found Safeco Electric to be extremely professional and co-operative throughout our working relationship and we would have no hesitation in the recommending them for future works.

Yours sincerely,

Mark Gormley  
Chartered Engineer
